The theme of this year's World Environment Day is Ecosystem Restoration. World Environment Day 2021 will see the launch of the UN Decade on Ecosystem Restoration. Webinar was conducted for students, Mr. Vikas Pandey guided everyone on how the college, students can do their part in environment conservation. Restoration could also remove 13 to 26 gig tons of greenhouse gases from the atmosphere. 35 students joined the session making it a success. Webinar ended on a good note with an informative and interactive session.

Outcome

The main objective of the webinar was to aware students about Ecosystem and its restoration. Students understood the harmful effect of climatic conditions on atmosphere and how they can help in reducing these environmental impacts.

REPORT: COVID -19 FREE VACCINATION DRIVE

On 22nd February, 2022 in the view of Covid-19 pandemic the Department of Lifelong Learning & Extension (DLLE) of Chandrabhan Sharma College of Arts, Science and Commerce organized Free Covid- 19 Vaccination Drive for the age group of 15 to 18 years in order to keep them protected through the corona virus.

Vaccination drive was inaugurated at 10:00 am by the college Managing Trustee Shri Prashant G Sharma and Principal Dr. Pratima Singh. The venue for the vaccination drive was on the ground floor of the college. Total 270 students were given the Covaxin vaccine as first and second dose as per their vaccination schedule along with the proper measures. Later on they were asked to follow the suggestions as per the Doctor's advice. Students from different schools and colleges were involved in this drive. Awareness was created among all on the rapid spread of the virus and what safety measures to be taken.

As per the government notice that the Covid-19 vaccination among the teenagers is the need of the hour, the vaccination drive was conducted by the Jaslok Hospital under the guidance of Dr. Sachin Iyer and his team till 5:00pm in the evening.

OUTCOME: The outcomes of a vaccination drive extend beyond its immediate duration. Increased vaccination coverage and community protection contribute to long-term benefits such as a reduction in COVID-19-related restrictions, economic recovery, and a return to normalcy.

CAMPAIGN AAROGYA SETU

REPORT

The Aarogya Setu app is a digital service developed by the National Information Centre under the Ministry of Electronics and Information Technology in India. It is primarily a mobile app used for covid-19 contact tracing, syndromic mapping, and self-assessment. Within 40 days of its launch, the app was downloaded over 100 million times. To create awareness about the importance of downloading the app, the NSS unit organized a campaign from March 25 to March 31, 2021, for students to download and share a screenshot of the app on a WhatsApp group. As a result, 63 students downloaded the app through the campaign. It is worth noting that the Indian government made downloading the app mandatory before entering educational institutions, shopping centers, banks, and other entities.

OUTCOME: Students gained a deeper understanding of the Aarogya Setu app and its significance in the context of public health. They learned about its features, such as contact tracing, self-assessment, and COVID-19 updates, and how it helps in controlling the spread of the virus.

'Intellectual Property Rights'

REPORT

Department of Life Long Extension (DLLE) committee of our college organized one day seminar on 7th February, 2020. The topic for the seminar was 'Intellectual Property Rights'. The aim of the seminar was to create awareness about intellectual property rights among students. This will help them to know the importance & process of filing Intellectual Property Rights.

The honorable speaker Dr. Hema Mehta from Tolani College of Commerce provided valuable guidance to the students regarding intellectual property Rights. Around 50 students from our college and 10 students from others college were participated for the event.

The event was a huge success by providing valuable awareness and insights on the various aspects of IPR.

Outcome:

Students gained a comprehensive understanding of Intellectual Property (IP) and its importance in various fields such as art, science, technology, and innovation.

They learned about different forms of IP, including copyrights, trademarks, patents, and trade secrets.

Students developed awareness of the rights and responsibilities associated with IP, including the rights of creators, inventors, and innovators.

The IPR education fostered respect for originality and creativity, encouraging students to value and protect their own and others' intellectual creations.

Cancer- Signs & Symptoms

REPORT

IQAC in association with Health and Celling Cell organized a one-day Awareness program on 20th August, 2018 from 11:00 am 12:00 am the topic "Cancer- Signs & Symptoms". The resource person for this education session was Dr. Samantha Tiwari.

Cancer is a disease characterized by abnormal cell growth in the body. The signs and symptoms of cancer vary depending on the type and stage of cancer. However, some common signs to watch out for include unexplained weight loss, fatigue, pain, skin changes, unusual bleeding or discharge, changes in bowel or bladder habits, and difficulty swallowing. It is important to seek medical attention if any of these symptoms persist or worsen. Early detection and treatment of cancer can significantly improve outcomes.

The session was attended by around 43 participants.

Outcome: Students learned and understand the common signs and symptoms of cancer through this seminar. They become knowledgeable about the early warning signs, such as unexplained weight loss, persistent fatigue, changes in bowel or bladder habits, abnormal bleeding, and lumps or masses. By recognizing these symptoms, students can seek medical attention promptly, potentially leading to early detection and improved treatment outcomes. Through the seminar, students gain awareness and understanding of the importance of monitoring their health and seeking medical advice if they experience any concerning signs or symptoms related to cancer.
