CAMPAIGN AAROGYA SETU

REPORT

The Aarogya Setu app is a digital service developed by the National Information Centre under the Ministry of Electronics and Information Technology in India. It is primarily a mobile app used for covid-19 contact tracing, syndromic mapping, and self-assessment. Within 40 days of its launch, the app was downloaded over 100 million times. To create awareness about the importance of downloading the app, the NSS unit organized a campaign from March 25 to March 31, 2021, for students to download and share a screenshot of the app on a WhatsApp group. As a result, 63 students downloaded the app through the campaign. It is worth noting that the Indian government made downloading the app mandatory before entering educational institutions, shopping centers, banks, and other entities.

OUTCOME: Students gained a deeper understanding of the Aarogya Setu app and its significance in the context of public health. They learned about its features, such as contact tracing, self-assessment, and COVID-19 updates, and how it helps in controlling the spread of the virus.

Governments all around the world have declared Lockdown with response to the outbreak of the COVID-19 pandemic, by enforcing measures such as social-distancing, quarantine and isolation.
