The Library used the e-Granthalaya ILMS software from 2017, and it was upgraded with LIBMAN Cloud Based ILMS in 2022.

### **About Library Software - e-Granthalaya**

Library functions automated through open-source software, e-Granthalaya Integrated Library Management Software (ILMS), developed by National Informatics Centre (NIC) Government of India, New Delhi. It has various modules such as admin, books acquisition, cataloguing, circulation, serial control, micro documents, search etc. and each module has further divided into submodules to cater its functional requirements.

With the help of this software various library activities are done like issue/return and renewal of books, sending email reminders to users regarding overdue items, regular updates of books purchased by the library, maintaining the database of books in catalogue module, import catalogue records from excel, Maintaining the Membership details of Students and Staff members (directly or import data from excel file), ID card generation, generating spine label and barcode, stock verification, maintain print journals records, maintaining newspaper clipping, search Module use for Generating reports by applying various filters like program-wise list of books, subject-wise list of books etc.

It also provides an Online Public Access Catalogue (OPAC) facility to search library documents by keywords like name of the author, title of the book etc.
