To,
 The Principal,

Chandrabhan Sharma College,

Greetings!!!

Subject :- Approval for Seminar

We are group of passionate people from the TOP MBA College like IIT-Bombay / JBIMS/G.I.M & Symbioses. We have been Nurturing Students for the entrance exam like CET/CMAT/TISS/SNAP/ATMA. Since 28th November 2010. All our trainers have qualified the above exams and have good experience about the entrance exam. We not only train our Students to qualify the entrance exam but mentor them to secure good placement & Designation in corporate world. We have also been responsible of creating 2 leading Test-Prep in India. Many students aspire to take competitive coaching but due to high fees many students turn down their aspiration and give up their dreams. Looking towards the need of the students we have customized our program to cater services to all set of students.

Why we conduct seminar??

As per our research – it has been observed that India is the only country in the developing and developed economies that follows a stereotype education pattern especially in the graduation segment. The size of the student segment in the Indian Economy being so large – that is virtually impossible to offer "Interest based education both at the undergraduate as well as post-graduate level.

In an attempt to be successful – it is imperative that students follow their passion – it is critical that there is a proper mapping of what students want to do and what they actually do, also the real aptitude – the skills base & interest levels the students possess needs to be polished and upgraded.

Highlights of session:-

- ❖ Life exemplary talk.
- ❖ Showcase of Mathematical Technique and method to improve vocabulary skills.
- ❖ How to manage risk in career.
- ❖ Communication skill.
- ❖ One to one counseling if needed.
- ❖ Certification from Times of INDIA.

Our lecture will go for minimum 60 mins. If you want more detailed lecture we can extend our time as per your convenience.

Thanks & Regards,
 E- Learn

IT typically requires 40-60% less employee time than **learning** in a traditional classroom setting. It enables much faster delivery because employees can access **eLearning** material anytime they want, and anywhere they are, setting their own pace and **training** whenever they have spare time.

Moreover, it **helps** both educational institutions and **students** do so. Colleges don't have to provide **students** with space for **learning** and with some additional materials for their education. **Students** don't have to travel somewhere to build new skills and gain new knowledge.

eLearning is **learning** utilizing **electronic** technologies to access educational curriculum outside of a traditional classroom. In most cases, it refers to a course, program or degree delivered completely **online**

Hence the e Learning is on the growth path today.

We would like to visit your institute to interact with your students and inform them more about our institute with objective of guiding those students who are intested in the above fields namely: Fashion, Design and Media.

We look forward to your reply with suitable date, time & Venue for our session. In case you have questions do let us know.

Thanking You & Regards

Aditi Chauvan

Indira Gandhi National Open University : www.ignou.ac.in

The Indira Gandhi National Open University (IGNOU), established by an Act of Parliament in 1985, has continuously striven to build an inclusive knowledge society through inclusive education. It has tried to increase the Gross Enrollment Ratio (GER) by offering high-quality teaching through the Open and Distance Learning (ODL) mode.

Today, it serves the educational aspirations of over 3 million students in India and other countries through 21 Schools of Studies and a network of 67 regional centers, around 2,667 learner support centers and 29 overseas partner institutions. The University offers about 228 certificate, diploma, degree and doctoral programs, with strength of nearly 810 faculty members and 574 academic staff at the headquarters and regional centers and about 33,212 academic counselors from conventional institutions of higher learning, professional organizations, and industry among others.

The vision of IGNOU, keeping its objectives in focus, reads:

The Indira Gandhi National Open University, the National Resource Centre for Open and Distance Learning, with international recognition and presence, provides seamless access to sustainable and learner-centric quality education, skill upgradation and training to all by using innovative technologies and methodologies and ensuring convergence of existing systems for large-scale human resource development, required for promoting integrated national development and global understanding.

Post their graduation; children can do their post graduation either full time or through distance learning. We would like to ignite the passion of students to continue their education along with their jobs as there is no end to education.
