About Conference

Hybrid is the New Uncertainty is a constant in today's business environments, with volatile market dynamics, customer demands, technologies, disruptions, and more. Managing transformation through this uncertainty requires maintaining a line of sight into key initiatives at every stage of the strategy-to-delivery journey. Otherwise, it's difficult to determine how strategic programs are progressing or whether outcomes are being achieved.

At the same time, human resources are exploring new ways of working that allow them to deliver faster.
