About Conference

Hybrid is the New Uncertainty is a constant in today's business environments, with volatile market dynamics, customer demands, technologies, disruptions, and more. Managing transformation through this uncertainty requires maintaining a line of sight into key initiatives at every stage of the strategy-to-delivery journey. Otherwise, it's difficult to determine how strategic programs are progressing or whether outcomes are being achieved.

At the same time, human resources are exploring new ways of working that allow them to deliver faster. It's imperative to support the varied ways these resources work with the right level of guidance and guardrails. Organizations now have mixed execution methods that challenge the traditional approaches to top-down planning and governance.

Moving faster in response to business fluctuations requires eliminating silos and disconnects across the organization, with updated processes, and technology. Managing transformation requires building agility into portfolio planning and funding to quickly reprioritize and shift focus, ensuring both teams and money are focused on in most impactful areas.

This conference is a sincere effort to provide an international platform for the Academicians, Policy Makers & Regulators, Research Scholars, Students, Social Scientists, Experts as well as industrialists to share their research findings with everyone.

FACULTY DEVELOPMENT PROGRAM ON-
“TRADE INTELLECTUAL PROPERTY LAW”
REPORT

The FDP committee of our college successfully organized a guest lecture on Monday, 11th March 2019. The lecture focused on the topic of "**Trade in Intellectual Property Law**" and aimed to raise awareness among faculty members about intellectual property laws. The session provided insights into the importance and process of filing for Intellectual Property Rights (IPRs).

We were honored to have Prof. Sajid Sheikh as the guest speaker, who initiated the discussion by highlighting the significance of intellectual property. Prof. Sheikh provided a concise overview of Intellectual Property Law, emphasizing the importance of timely renewal of IPRs for effective enforcement, except in the case of copyright and trade secrets.

The lecture witnessed active participation, with a total of 24 faculty members registering and attending the event. The atmosphere was filled with enthusiasm, and the session concluded with a question-and-answer segment, allowing for further clarification. Mr. Umesh Kabadi expressed gratitude on behalf of the attendees, concluding the event on a positive note.

We extend our appreciation to all faculty members for their engagement and active participation in making this guest lecture a resounding success.

LEARNING OUTCOME: Faculties acquired a basic understanding of Intellectual Property Law, including its main principles, categories, and legal frameworks. **They learned about the different types of intellectual property rights, such as patents, trademarks, copyrights, and**

trade secrets.
