CERTIFICATE PROGRAM IN DIRECT INDIRECT TAX

REPORT

The “Certificate Program in direct Indirect Tax” has been successfully completed by department of B.com (Accountancy & Finance) of Chandrabhan Sharma College in collaboration with Financial Planning Academy. The certificate program in direct and indirect tax had enabled students with a comprehensive understanding of tax principles, regulations, and compliance. The coursework was divided into two modules: Module A focused on direct tax, covering income tax, corporate tax, wealth tax, and taxation of special entities. Module B covered indirect tax aspects, including GST, VAT, customs duty, and other indirect taxes. By completing this program, students were able to alleviate the necessary knowledge and skills to navigate the complexities of the tax landscape and make informed decisions in their professional careers.

The prime motive of the course work was to provide necessary insightful information on taxation aspects which would enable students to develop better understanding on the tax landscape.

In total 45 students benefitted from the 30 hours course work.

Outcome:-

Comprehensive knowledge of tax laws: Participants gain a thorough understanding of the legal frameworks and regulations governing direct and indirect taxes. They become familiar with the various provisions and sections of tax laws and how they apply in different scenarios.

Report: Resume Building

A webinar on resume building hosted by Chandrabhan Sharma College's Placements & Career Guidance Cell and BAMMC Department. On the 27th of July at 5.00 pm, a webinar was held for students from all streams.

Prof. Atul Sathe, Professor of Accountancy at H.R. College of Commerce and Economics, was the webinar's speaker and has also organized a number of investor education seminars. Also he organizes treks and field visits in addition to his professional responsibilities.

Prof Atul Sathe led the webinar, which offered advice on how to write a professional and appealing CV. Prof. Atul also revealed certain facts and preconceptions that individuals have. This session turned into a vital resource for students. The seminar also covered several forms of official documents and how to use them in various professional situations.

Because Prof Manali Naik, Convener – Placements & Career Guidance Cell, faculty member Prof Nikhil Mane and Arun Vishwakarma were on hand to assist throughout the seminar, this Webinar was a success.

At the end of the webinar, Prof. Atul Sathe conducted a brief question-and-answer session. Where students could ask their questions and concerns about the company, creating a resume. Prof Atul responded with detailed explanations that were simple and easy to understand.

Objective and Outcome of certificate course cloud Security:-

1. Understand the fundamental principles of cloud computing and the different service and deployment models.
2. Understand the unique security challenges associated with cloud environments and the importance of risk management, access control, data protection, and compliance.
3. Design and implement secure cloud architectures, including network security, data encryption, identity and access management, and secure application development.
4. Understand the security implications of virtualization, containerization, and cloud storage and databases, and implement appropriate security measures.

Overall, the outcome of a certificate program in Cloud Security should be that students are able to design, implement, and manage secure cloud environments and understand the risks and challenges associated with cloud security. They should be able to make informed decisions about cloud security measures and governance and be able to keep up-to-date with emerging trends and technologies in the field.

CERTIFICATION PROGRAM IN FINANCIAL MARKET

REPORT

The BMS department of our college had organized Certification Program in Financial Market for the second and third-year students. The program is primarily divided into 2 modules

1. Financial Markets and Investment Planning
2. Financial Planning

The program was of good help to the students in understanding the concept of Finance Market. This also helps the students in updating their knowledge which will surely help them to be competitive. A total of 120 students participated in the certification program.

Outcome: - The program significantly enhanced students' knowledge of financial markets, investment strategies, and risk management. Participants developed a comprehensive understanding of market dynamics, investment instruments, and regulatory frameworks. The outcomes achieved by the students validate the program's effectiveness in preparing them for the dynamic and challenging financial market landscape.

Report: Brighways - webinar on various skills kranti/ campus to corporate

2nd May, 2020

Placements and career guidance cell of Chandrabhan Sharma College along with Brightways (leads the future) organized brilliant insights on hiring trends and practices and what skills are going to be essential as we navigate this emerging normal.

Our workshops nurture skills to see beneath the surface and move to the core of what students need to thrive, while helping raise professional satisfaction and resiliency for teachers and other school staff. For youth to succeed in school and life, they need a network of caring, connected adults who can guide and help them thrive amid life's challenges.

Brightways Learning has been ensuring personalized learning success for more than a decade. We work together with students, parents, and schools to provide a comprehensive education that meets each child's unique learning needs.

Smt. Durgadevi Sharma Charitable Trust's Chandrabhan Sharma College of Arts, Science & Commerce was founded in 2004 to serve the ever-growing educational needs of students. The college had the modest beginning with less than 100 students. Under the visionary leadership of Trustees, Principal and dedicated Faculties it has grown by leaps and bounds.

The degree college affiliated to the University of Mumbai was started in the year 2008 with B.Com and B. Sc. (IT) courses. BMS and B.Com (A&F) were introduced in the year 2009. B.Com (Banking & Insurance), B.Com (Financial Markets) and BMM were started in the year 2012. The college also started Bachelor in Computer Application (BCA) course under Yashwantrao Chavan Maharashtra Open University in 2015. The college plans to start several new courses in future so as to cater to the needs of students.

The college lays emphasis on building values, nurturing talents and developing strong academics among students.

STUDENT'S CONTRIBUTION

Indian Economy: Overview

The Indian economy is definitely undergoing a slowdown, with Moody's downgrading India's GDP growth rate to 6.2% against earlier projection of 6.8% for the year 2019. However as per the annual report of the Reserve Bank of India (2018-19) the current crisis in the economy is only cyclic in nature and isn't that deep and it is suggested that the same can be tackled with the structural reforms in land, labour in marketing. Niti Aayog has claimed that the current slowdown in the Indian economy is unprecedented in 70 years of independent India.

Slow demand pattern has certainly made a very negative impact upon the growth pattern in India contouring in few of the highest GDP contributors the economy. The slowdown has not only impacted the concerned sector but also the industries having various backward and forward linkages.

The major sector impacted is the auto mobile sector, where a job loss of almost 2.30 lakh has been reported. During April to June 2019 the car sales fell by 23.3% in comparison to a similar period in 2018.

Even sale of Two-wheeler fell to great extent during this period.

The next sector in the list is the real estate sector where an unprecedented inventory of 1.28 million is left that will take more than three years in wiping out. With the slow consumption in the sector a job loss of over 1 lakh has been reported in the sector. Due to the low liquidity in the hands of the developers, the developers are more interested in completing the projects in hand rather than starting the new ones. It is estimated that in the absence of any booster plan, an unprecedented job loss of around 5 lakh may loom over the industry.

The low consumption pattern is also affecting the FMCG sector badly where the value growth in the April-June quarter of 2019 dropped to 10% from a year ago. It was also the third consecutive quarter of slowdown.

As the current slowdown, is to a great extent the ripple effect of the global economic slowdown and the trade war between US and China, a large effect is seen on the export front where the prime foreign exchange earner sectors such as petroleum, rice, gems and jewellery, readymade garments and engineering goods have shown the sharpest decline.

What needs to be done to boost the economy?

Here are few measures :-

- a. The economy needs booster packages to increase growth in both rural and urban sectors, further the confidence of the working population also needs to be increased as because of the uncertainty of future, people are not making much of expenditures, but are sitting on their incomes.
- b. The banks should be mandatorily transmit repo rate cuts to industry, making the loans cheaper;
- c. Reduction in corporate tax, making the investments more viable;
- d. Public investment in infrastructure and tax incentives to the new investments and set ups.
- e. GST refunds and should try to make it real time, undoing the large working capital blocked.
- f. Breather packages for the health of NBFC sector needs to be infused, as the sector is facing a major downturn which is having its trickle down effect on various other sectors.

What's the outlook like for the Indian economy?

With a large amount of young population, the demand is sure to increase in long run, as per the recent report of Goldman Sachs the economy will show the signs of recovery by 2020.

SOLDIER

I saw a burial with a bugler playing taps,
I turned to my father, "what happened?" I asked.
He held my hand and with a stammer in his voice,
He began to explain and his eyes became moist.

We've always heard that a soldier is brave,
Fighting for his country happily gets into a grave.
To let us sleep he stays awake,
Runs through forests, swims freezing lakes.
Has a heart with no fears,
On his death the nation sheds tears.
A soldier stands and fights all night keeping us from harm,
While some of us sitting at home refuse to lift an arm.

There's discipline in a soldier you see it when he walks,
There's honor in a soldier you hear it when he talks.
There's courage in a soldier reflecting in his eyes,
There's loyalty in a soldier that he won't compromise.

Essay on Education

Education refers to learning new things as it plays emphasis on building one's own personality, teaches moral values, also mould the way we live our lives. It is said that "If you give a beggar some money he may use it once and if you give share food he may get filled for once but if you give him education he can fulfill all his needs for the rest of his life" and that is the power of education.

Education is not just something that we learn from our school or college but gained in all walks of life whether one is young or old. But in today's world education has changed not only by students but also by the parents and teachers. As education has just become a necessity "Just because others do it I also have to do it" and not because they want to gain more knowledge or learn new things. Student have lost their interests rather they believe in showcasing themselves as they know everything. As social media has become a necessity of every students life they indulge themselves an those activities which are useless but seems entertaining to them. As for parents who are meant to be motivator are also doing wrong all what they expect from their children are top grades it does't matter if their child is interested or not but are forced to do it because of their parents.

Education is not just about scoring best grades or attending every lecture it is about what we have learnt,gained after spending hours and hours of our lives at the end how we use it skillfully that is what comes in action.

TODAYS EDUCATION

Does the modern education system has the potential to change the world as we known it? Let find out. The modern education system is changing however, the main question remain: Is the current education system changing the world or not? This article highlights 3 signs that unravel a mystery: perhaps the current education may not be changing this world as we expected.

1. The education system is purposely exam-oriented: The modern education system remains exam-oriented, just like it always was. We rely on roution memorization as the key approach to education. School are still using test scores as the primary criteria to analyse the knowledge and skills of the students. We are made to believe that good test scores are the key to achieving success. Teachers are not emohasinzing the importance of being creative, innovating and diverse. They don't bother to discover talents, they just want to see how good the students are at memorizing. From the look of it, the current education will not change the world in terms of enhancing students creative thinking &problemsolving skills.

2. The teacher's don't get the support & training they need: The modern education system does not support people in discovering what they enjoy or what they are good at. It is a matter of 'Go to college, choose a course you have no idea of, get a degree and graduate. Teachers also lack support and encouragement form the government to respond to the need today's students have the student simply learn for the sake of learning and complete the syllabus as directed. If we want to make education the driving vehicle to success, then the current system needs to focus on offering support to teachers.

3. Government are not investing enough finances in education. Currently, most countries in the world are in need of funds to sustain their educational activities, such as hiring teachers, constructing new school, organizing workshops, and so on. As a result, it has become hard to raise sufficient funds for the educational reforms. On the other hand, the teacher student ratio is low, and that affects the growth of students. Similarly, the quality of education delivered in schools is questionable. There are in adequate teaching & reading materials in some parts of the world.

THE ROLE OF MEDIA IN INDIAN POLITICS.

The main tools of Indian politics is Media. Media and politics are the two equal and opposite side of same coin and none can persist without others. With the advent of most recent term 'Globalization' the crown of Indian Politics has taken a dramatic shift towards its most modern form. Along with maintaining the responsibility of culture of the Nation, media is performing as the mover and changer from stereotypical type to most modern and most updated form of politics. Media plays a very dominant role in politics with shaping the public opinion towards the Nation as well parties. In the era of Information Technology it is quite difficult and too impossible for respective government to keep centripetal force over its citizen in the midst of Internet, Twitter, Satellite channels and radio stations.

Till this date there are numbers of print media tools has spread the policies of respective government for the betterment of its people but with the passing of time and situation the demands for most modern technology always rest on the top. Media has unique power in any political system and this power stems both from their main source of information about its culture, people, and events on a regular basis and their multiple functions in politics. Media is a most powerful stem of politics in creating its audience attitude, opinion and too behavior for the betterment and most prospective nation. In a democratic Country like India there are thousands of complexities starting from societies to Nation like of flood of new events with most modern concept and with new and updated form of technologies, media have enormous power to formulate the real understanding of world and too affects its behavior of its citizen. The footprints of the modern media form is highly making it's way in than early decades, and their roles in politics are becoming the major points of discussion and controversy. Media is the most utilized and most useful tool in the hands of any government as well citizen to run the country with most effective and most updated way.

SOCIETY

Yesterday another student committed suicide. The suicide note said he was sorry for not making his parents happy because of his exams results. Little did he know that his parents were under a strong influence themselves- society. The day we start living by the expectations of others we lose more of ourselves. Society was supposed to mean a group of people interacting and communicating with each other so as to keep growing. But all today we push ourselves further into dark abyss- [momentous life decision without uncertainty]. We consider society to be most essential factor in a way of living life. The thought of "what others would think" hinders the possibility of free thinking. Old teachings do matter a lot. But roots are meant to help us stand when we grow strong and not pull us down. We do need to consider that change is important too. Not the change in principles or teachings but in the mind we carry. If this happens, tomorrow maybe someone will choose not to give up. Tomorrow maybe a love story will cross boundaries religion. Tomorrow maybe another girl will break free from her restraints and stand on top of the mountains. Tomorrow maybe, maybe that unwanted child may become a special gift. Tomorrow maybe, my society will be the change and not the continuity.....

But it's important to make you aware..
We share a give and take relationship..
But this is not working
You talk about sustainable development
You promise csr
But,
Why all this only in air?
Why don't I deserve more care?
All I need is more attention..

Social Responsibility

Our lives begin to end the day
We become silent about things that
matter, said Martin Luther King Jr.
As a matter of fact that is so true
Do we see poverty and misery brew
Because of labour policies and the unfair
trade practice crew
Are we responsible for the carbon
footprint
To mitigate climate changing?
Do our hands reach out into our pockets
For charitable giving?
Or help, better our community living?
Where should the change begin?
The change has to be within
The way we think,
So that we can make the world a better
place to live in
Man is by nature a social individual
And society is our home perennial
Therefore, let us live an impactful life of
being socially responsible
Joining hands for this good cause not only
for us but for the entire generation to
come.

The Ethical Issues of Social Media in Journalism

In today's age of journalism, professional journalists share the social media sphere with tweeters, bloggers and avid social media users. However, there is much backlash over what journalists can say or include on their social media accounts - both professional and personal. While many news organizations and media companies encourage reporters to use social media to gather information and create a "brand" for themselves, online comments, tweets or posts can put a reporter in the negative spotlight. We have all seen this in recent events over the past few years. These incidents range from journalists promoting political views, endorsing candidates and making offensive comments. With that in mind, the ethical challenge is to develop social media guidelines that allow reporters to explore the new digital media world, yet also draw reasonable limits on personal commentary.

Establishing reasonable social media guidelines allow journalists to have an independent voice on social media, but also follow protocol and maintain professionalism within their job. Social media plays a crucial role in journalism today.

Consumers today receive news articles on their smartphones as fast as the author can write it. Citizens now play a drastic role in journalism, and the usage of smart phones and social media allows citizens to partake in the news making process. Platforms such as Twitter, YouTube, WordPress and Medium allow ordinary citizens to produce their own news content and share content with larger news sources such as CNN.

Guidelines are the easiest way for journalists to use social media intelligently and usefully, without harming their reputation or the organizations reputation. We've seen it recently that when someone is thrown under the bus, that organizations reputation is now tainted in the eyes of some people in the public. It alters the way journalists are seen by the public drastically.

We must remember that sources and subjects are not only material, but also human beings. Our words have a great impact on not only ourselves, but our colleagues and the public. It is also essential to remember that we are surrounded by a community consisting of family, friends and co-worker, thus, we must choose our words carefully. Although journalists are entitled to privacy online, it is important to know that journalism is a balancing act between the rights of the public to privacy, and of course their right to know information.

The ethical issues of social media can be fixed, and it is currently on its way to developing journalism further than we could have ever imagined in the past 40 years. As social media continues to grow, users are acknowledging what's right from wrong, and what are good practices for online journalism. Social media guidelines are not here to remove our First Amendment right. They are here to help us become better journalists and citizens in the world.

The Importance of Social Media in Education

Introduction

This is the age of smart phones and micro blogging. Everything that we need to know is just a click away. Social media is the most widely used tool by all age groups today, but is more popular among the youth and students. Keeping this in mind researchers feel that social media can play a very important part in the field of education. It can be used to reach out to many students and can be highly effective as well.

There is a large majority of academic thinkers that feel social media is a deteriorating agent for students but if used wisely it can be highly effective. Instead of getting in the argument of social media being good or bad, we must find ways to use it for our benefit. The question still remains that how can social media be used for our advantage in education, let's try and answer this.

Importance of Social Media in Education

Today platforms like Facebook, twitter, LinkedIn etc. are most widely used by(both) teachers, professors and students and they have become quite popular among them. For a student social media plays a very important role as it makes it easier for them to access and share information, get answers and connect with teachers. It is through the platforms of social media that students and teachers can connect with each other and share content thereby making a good use of these platforms.

Social Media Importance are following-

- **Live Lectures:** Many professors these days are conducting live video chats on skype, twitter and other places for their lectures. This makes it easy for students as well as teacher to learn and share while just sitting in their homes. How easy and convenient education can be through the help of social media.
- **Increased support:** Since we have the use of social media at our disposal at any hour of the day, teachers can provide off hours support and solve queries of students even after class timings. This practice also helps the teacher to understand development of their students more closely.
- **Easy work:** Many educators feel that the use of social media makes the work easier for both them and students. It also helps the teacher to expand and explore their own possibilities//skills// and knowledge.
- **More disciplined:** The classes conducted on social media platforms are more disciplined and structured as we know that everyone is watching.
- **Teaching aids:** Social media can help the students to nourish their knowledge with a lot of teaching aids available online. Students can watch videos, see images, check out reviews and instantly clear their doubt while watching the live processes happening. Not only students, even teacher can make their lectures more interesting by using these tools and teaching aids.
- **Teaching Blogs and write ups:** Students can enhance their knowledge by reading blogs, articles and write ups by renowned teachers, professors and thinkers. This way good content can reach wide audience.

Conclusion: It cannot be denied that if used wisely social media can make education much better and create smart students.

Patriotism Essay

1. Introduction

Patriotism is the feeling of love and respect for one's country. Patriots are known to love their country unconditionally and are proud of it. Every country in the world has its set of patriots – people who are ready to do anything for their country. However, the spirit of patriotism seems to be fading these days owing to the growing competition in every field as well as the changing lifestyle of people.

The Feeling of Patriotism must be instilled

In the past, particularly during the British reign, many people came forward to instil the feeling of patriotism among their fellow countrymen. Patriots held meetings, gave lectures and used various other means to inspire the people around them. In the same way, a feeling of patriotism must be instilled in the young generation today too. This must be done when they are still young. Schools and colleges must take initiative to instil children with a feeling of love and respect for their country. Many institutions host functions and organize events on 15th August and 26th January. Patriotic songs are sung and a feeling of patriotism seems to engulf the entire nation around that time. But is this real patriotism? No! Such an atmosphere must be created in general and not just around these special dates. It is then that such a feeling will be instilled in the heart of every citizen forever.

A nation where the youth loves the country and is driven towards improving its condition socially and economically would certainly grow better.

2. Conclusion

A true patriot is the one who works hard for the betterment of his country. He contributes his bit towards improving the condition of his country in whatever way he can. A true patriot does not only work towards building his nation but also inspires those around him to do so.
